FINAL APPROVAL OF THE FINAL PHASE I RCRA [RESOURCE CONSERVATION AND RECOVERY ACT] FACILITIES INVESTIGATION/REMEDIAL INVESTIGATION WORK PLAN FOR OPERABLE UNIT 14, RADIOACTIVE SITES - WSB-429-93

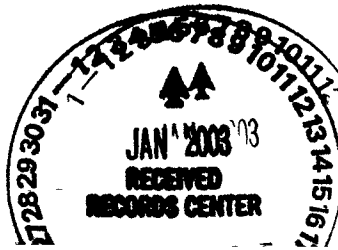

Ref G W Baughman ltr to M Hestmark, Comments, Final, RFI/RI Work Plan, Rocky Flats Plant, Radioactive Sites (Operable Unit No 14), October, 1992, November 16, 1992

The purpose of this letter is the pursuit of approval of the Final Phase I RCRA [Resource Conservation and Recovery Act] Facilities Investigation/Remedial Investigation (RFI/RI) Work Plan for Operable Unit (OU) 14, Radioactive Sites Following incorporation of comments on the Draft Work Plan from the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA), the Final Work Plan was submitted to EPA and CDH for approval on October 19, 1992 Subsequently, CDH transmitted the above-referenced letter to EPA recommending approval of the Final Work Plan

The EPA transmitted a letter to the Department of Energy, Rocky Flats Office (DOE, RFO) stating that the Final Work Plan addressed the comments, although approval of the Work Plan was being withheld pending submittal of a schedule for OU 14 and the connection with the proposed industrial area Interim Measure/Interim Remedial Action (IM/IRA) Plan

The OU 14 Work Plan and the activities outlined therein will be performed as proposed in the document Operable Unit 14 RFI/RI activities have been incorporated into a master schedule for performing non-intrusive (radiological surface surveys, surficial soil sampling, vertical profile sampling and soil gas surveys) sampling and is attached

The non-intrusive activities for the industrial area OUs are not coordinated with the proposed industrial area IM/IRA due to the possible rescoping of the IM/IRA activities The proposed linkage between the industrial area IM/IRA and the industrial area OUs would be that data generated from the non-intrusive sampling activities would provide a basis for planning and implementing the IM/IRA

During the interim period since final submittal of the Work Plan, an integrated approach for performing the RFI/RI field work has been adopted for OUs 8, 9, 10, 12, 13 and 14. The integrated approach to the RFI/RI will not alter the integrity of the individual OUs or the work plans associated with each. An overview of the integrated approach and status of activities was presented to representatives from EPA, CDH and DOE, RFO on September 23, 1993.

If you have questions regarding this letter, please contact M F McHugh of Remediation Project Management at extension 8624.

A handwritten signature in dark ink, appearing to read "W S Busby". The signature is stylized with a large, sweeping initial "W" and "B".
